PROFILE

Full Stack Engineer with 3+ years of experience shipping scalable, user-focused web apps with **React**, **Next.js**, **Node.js**, **TypeScript**, **Supabase**, **PostgreSQL**, and **MongoDB**. Comfortable owning features end-to-end, improving performance, and mentoring teammates.

Open to relocation within Europe and available for visa sponsorship.

PROFESSIONAL EXPERIENCE

Full Stack Engineer (ERP)

Admission

📅 May 2025 – Present 📍 Tunis, Tunisia

- Designed ERP architecture with **Next.js**, **Node.js**, and **PostgreSQL**; accelerated deployments by 40% via **CI/CD**.
- Led a team of 5 engineers: reviews, pairing, and delivery coaching; drove coding standards & DX improvements.
- Coordinated roadmap with stakeholders and ran technical demos for non-technical teams.

Full Stack Developer

BeBouncy

📅 Feb 2023 – Feb 2024 📍 La Marsa, Tunisia

- Delivered core features across **Next.js** frontend and **Node.js** backend; improved perceived performance.
- Introduced app-wide state with **Redux**; reduced renders and stabilized UX under load.
- Automated delivery with **Docker+CI/CD**; cut release time by 30%.

Full Stack Developer

Sikka Software

📅 Aug 2022 – Present 📍 Remote

- Shipped 12+ client projects using **Next.js**, **GraphQL**, **Supabase**, and **Node.js**.
- Optimized APIs and data access, reducing response times by 25%.
- Collaborated with distributed teams; maintained clear specs and delivery timelines.

LANGUAGES

- English**: Professional working proficiency (B2)
- French**: Professional working proficiency (B2)

PROJECTS

LinkTrack

Open Source Link Shortening & Analytics

📅 linktrack.app

- Public open-source platform for branded short links and engagement analytics; built to show-case production-quality work.
- Stack: **Next.js 15**, **Supabase**, **shadcn/ui**; responsive UI, secure auth, and performance-first rendering.
- Implements usage analytics, role-based access, and tiered subscription plans; deployed on `linktrack.app`.

Payment Gateway

Multi-Processor Integration

📅 APS, PayPal, Stripe

- Built secure, scalable flows for one-off and recurring payments across multiple providers.
- Developed **Next.js** frontend and **Node.js** backend with unified webhook handling, idempotent retries, and robust error recovery.
- Integrated fraud detection and payment validation checks, reducing failed transactions and improving user trust.
